

# Automatic Letter Opener

Model 3078

## Milling Cutter Technology

Protects the contents from being cut or damaged. Removes up to 3mm (1/8") of the envelope edge. The removed material is in the form of tiny chips, which are deposited in the waste bin. Creates a soft, feathered edge opening, which prevents paper cuts and gives easy access to the contents.

## Mixed Thickness Separator

This separator design ensures that only one envelope passes through the machine at a time maximizing separation and improving cut quality.

## High Speed

Opens up to 36,000 envelopes per hour. Opens mixed mail, from the smallest to the largest, completely. Opens up to 6mm (1/4") thick envelopes. Entire system built to handle large flats and envelopes.

## Reverse Flow Conveyor

Allows operator to stand in one place to both feed and remove opened envelopes. This increases the production rate by approximately 40%

## Simple and Reliable

High degree of operational reliability

## Heavy Duty

Solid metal construction throughout. Made of steel using the highest quality of components. Has two motors for better performance and a longer life.

## Standard Features:

Resettable counter, batch counter, rate counter, lifetime counter, on demand feeding, on delay feeding, milling cutter on/off reverse flow conveyor, variable speed

## Specifications:

**Length:** 1070mm (42in) **Depth:** 750mm (30in) **Height:** 1195mm (47in) **Weight:** 118kg (260lbs)

**Power:** 120VAC - 5.00A or 230VAC - 3.00A

**Envelope Size:** All sizes and types. Maximum Thickness 6mm (1/4")

**Depth of Cut:** From 0 (no cut) up to 3mm (1/8")

**Feeder Capacity:** Approx. 100 envelopes **Receiving Tray Capacity:** Approx. 100 envelopes

**Theoretical speed:** 36,000 envelopes per hour **Production speed:** 20,000 envelopes per hour

**Stand and Waste Bin:** Included. (If you have a trained octopus as an operator, revert to the theoretical speed)
